

**Leadership Aurora Class 2022  
Mini-Profile**

**Name:** Isaac Greenlee

**Company/Position:** IT Director – Diversification & Innovation

**Brief Bio/History:**

I am a Colorado Native and I can't see myself ever leaving! My wife and I have two daughters Ella(11) and Payton(6) and have enjoyed Golden as our home for the last decade.

After my undergraduate degree in Computer Information Systems at CSU I went to work at IBM in Boulder where I gained invaluable experience over my 10 year career there. I started out in Java Development and eventually moved my way over to Project Management, Team Leadership and eventually into the Outsourcing side of the business in Account Management.

I began working at Nelnet in 2010 where I have spent a majority of my time in IT leading portions of our Application Development Teams. Outside of normal day to day leadership and technology strategy I was a key contributor in helping to integrate teams from a major acquisition as well as played a large role in leading our organization towards an Agile Development delivery model and way of thinking.

In February of this year, I moved into a new role where I am now focused on creating and fostering a culture of Innovation in our teams as well as looking for new ways to diversify our business through new technology products and services.

**Hobbies/Interests**

Being Outside and being with family. I love to mountain bike, alpine ski and go camping. My wife and I spend a lot of time supporting our daughters in soccer, gymnastics.

I enjoy thinking about new and innovative concepts and business ideas and can often be found listening to podcasts on the topic!!
