# Chair's Letter

**T**his has been an incredible year serving as the Chair of the Aurora Chamber of Commerce! Thanks to all of you for your membership in the Chamber. I hope that it's been an enjoyable and productive membership year.

What I've learned this past year is that the Chamber is not

— and cannot be — the Chamber of 20 years ago. It is far more than a “ribbon cutting” organization! The Chamber does so much more for its members, and correspondingly requires more from its member in return. I've also come to appreciate how unique this Chamber is — how it truly is a partner to every business and citizen. As a member, you may not have time each month to answer hundreds of requests for information, or to help develop an aspiring entrepreneur. But let me assure you, that support is being provided by the Aurora Chamber of Commerce.

So how does this work? As business owners, managers, and employees, we all should realize that the largest negative impact on business can come from government. Your Chamber works constantly to stay on top of issues and to keep to you informed. For example, on a local level the issue may be zoning or the cost of water. The Chamber will be at related meetings to ensure that people understand the business perspective.

On a state level, our lawmakers know they must balance the budget. This slow economy has caused a drop in revenue, and state government is looking for ways to increase income without saying “tax increase.” We are looking over their shoulders and informing them of the impact that any increase in fees or cost of permits will have to business owners — and what the consequences could be.

On the federal level, Health Care Reform, Cap and Trade, and Freedom of Choice Act are three major pieces of legislation being debated. Any one of them, once enacted, will have significant impact on business. Your Chamber has discussed the impacts of this legislation on business with Congressional leaders.

In short, The Chamber is working every day on your behalf with all levels of government. Go to any local meeting and there will probably be a representative from The Chamber in attendance. Our elected leaders know they need the support and input of businesses, and that they can't represent us without knowing our needs. We'll be reminding decision-makers that government doesn't create the wealth that turns our economy; they simply collect it and spend it. If you take successful business out of the equation there will be no more money to spend — no more roads, no more public art, no more schools....you get the idea. Successful business is what makes everything else possible, so let's make it possible for business to be successful!

With the economy in the early stages of recovery, we know how difficult it is to support our programs with both time and money. But the work that the Chamber does is important and worth your investment. It is also imperative to financially support your fellow businessmen and women. They are part of our team and many of them actively participate in our Chamber committees. That means they are taking time away from their business to help all of us. We are all in this together, and that is what has been so rewarding this year — to see fellow business members come together as the “voice of business” in our community.

As I wrap things up, I especially want to thank my hard working fellow board members, the Chamber staff and especially you, the members, for making this past 12 months such a great experience. I know that the Chamber values the opportunity to perform the critical function of being the respected voice of business in the community, and values your partnership as this mission is executed.

My hope for all of you is that we will rise above the challenges to meet our goals both individually and collectively to grow a stronger and more prosperous community. Now get out there and be successful!

Thanks again,

Craig Ward, Chair  
Aurora Chamber of Commerce

## Aurora Chamber Spotlight on... Ambassador Barbara Rowe

Barbara Rowe is spreading the word about two high-quality year-round family vacation and conference centers located in the heart of the Colorado Rocky Mountains. The Estes Park Center

accommodates 3,500 people, providing a traditional camp atmosphere in the Estes Park area. The center is also home to Long's Peak Lodge, which is the first building in the Estes Park Valley to receive a LEED (Leadership in Energy and Environmental Design) Gold Certification by the U.S. Green Building Council in February, 2010 for implementing sustainable green strategies into its design and construction. The second center located near Winter Park is the Snow Mountain Ranch. The ranch covers more than 5,000 acres and provides facilities and programs to bring families together.

The goal of the YMCA of the Rockies is to deepen relationships and nourish the bodies, minds and souls of all its visitors in these two pristine mountain locations.

Rowe also helps to spread the word about the Aurora Chamber of Commerce as an Ambassador. Her career brought her to Aurora to work in hospitality, she moved to Winter Park to work for the YMCA of the Rockies, and then moved back to Aurora to spread the word about the YMCA, and has worked closely with the Aurora Chamber ever since.

Raised and educated in Omaha, Nebraska, she loves College football and will always be a Husker fan. She has two daughters, one son and three grandchildren. And given her job, it's no wonder that she loves to play golf, hike and bike in the Rocky Mountains.

## The Chamber's Mission

The mission of the Aurora Chamber of Commerce is to serve as a voice for the business community, acting as an advocate for its members on issues that affect their growth and long-term economic vitality.

## DON'T FORGET: “Every employee of a Chamber member is a member of The Chamber”

Please route this issue to your sales reps, account managers, marketing directors, HR and PR departments. You can also access each month's newsletter online at our website, [www.aurorachamber.org](http://www.aurorachamber.org), so you can forward it to every employee in your company!

## Perlmutter, Coffman Hail Raytheon GPS Project As Job Creator

U.S. Reps. Ed Perlmutter and Mike Coffman highlighted the new U.S. Air Force GPS contract which has been awarded to Aurora-based **Raytheon**, as an example of the kind of private sector jobs needed in order to rebuild the economy. The contract for the Next Generation CPS Control Segment will create more than 300 new jobs in Colorado, and will support operations at the growing **Buckley Air Force Base** in Aurora and **Schriever Air Force Base** in Colorado Springs.

## E-470 Executive passes

Ed DeLozier, executive director of the **E-470 Public Highway Authority** since 1999, passed away unexpectedly on April 21. He was 58. DeLozier, a long-serving member of The Chamber Transportation Committee suffered a stroke after attending an industry conference in Austin, TX.

Chamber board past chair Jo Snell who worked closely with DeLozier called him "one of the greatest leaders I've ever had the privilege of working with."

Transportation Committee Chair Chris Fasching with **Fellsburg Holt & Ullevig** and past Transportation chair Dave Frazier with **Merrick** called DeLozier "a leader on local transportation issues" expressing sadness at his passing.

Ed Tauer, E-470's Board Chair and Mayor of Aurora, said, "Everyone in the E-470 family is greatly saddened by Ed's death. Ed was a unique soul. We will miss his warm, personal leadership style and sense of humor."

## Arapahoe/Douglas Works! extends reimbursement program

**Arapahoe/Douglas Works!** HIRE Colorado wage reimbursement program for Colorado businesses has been extended through September 30 according to Dan Ryley, business development representative.

Ryley said the program is an opportunity to receive up to \$6,000 in cash reimbursements for each eligible new hire. It offers businesses an innovative resource for recruiting new employees which gives them on-the-job experience and reduces their demand for public assistance when unemployment benefits run out.

He stated there were a number of additional updates that make the program even more accessible to local companies including:

- The reimbursement is now available for all current open positions within your company, not just new job creation.
- The Arapahoe/Douglas County residency restrictions for applicants have been relinquished. This means any Colorado resident can qualify your company for the reimbursements if they meet the two other eligibility requirements:
  - Candidates must have a child under age 18
  - Candidates must have a household income under \$75,000/year

- Funding has been extended through September 30th, which means there is plenty of time to place individuals with your company that will qualify you for additional reimbursements.
- Reimbursement is 100% of the hourly wages, up to \$6,000 per new hire, and up to 5 placements within your company.

To apply for a subsidy, or for more information about the workforce center's free services for businesses, contact Dawn Gardner, Business Development Supervisor at 303-636-1275 or Ryley at 303-636-1405, or visit [www.adworks.org](http://www.adworks.org).

## VA Hospital fully funded

Groundbreaking for the 200 bed hospital is expected to take place in August, with opening expected in 2014 and full operational capability by 2017.
